Relocation of Bicycle, Pedestrian Trail & Access Control Gate at 56th St. N. and N. Memorial Dr.

Tulsa County has agreed to allow Miller Products, dba Gem Dirt Sales, LLC. (Gem) to relocate the access control gate and existing bicycle/pedestrian trail currently located on closed N. Memorial Dr. to a location adjacent and west of N. Memorial Dr. with appropriate signing and striping.

The relocation will begin at 56th St. N and continue approximately 1,600 feet north along N. Memorial Dr. Trail users should stay aware of potential construction and increased truck traffic as the relocation gets underway. The trail may also be closed for brief periods during the relocation project.

Gem anticipates needing road access to their new property and will survey, grade, prep the site, pave, and conduct the miscellaneous construction necessary to complete the relocation at their sole expense. Tulsa County will provide construction inspection to ensure all work is done according to the accepted plans.

It is anticipated that truck access will be needed to this property for approximately 20 years, during which time Gem will provide all needed maintenance on the modified roadway and keep it in good repair, under the direction, guidance, and specifications of Tulsa County. Within 6 months of the end of Gem's activity at this property, Gem will restore the roadway and trail to its original state. The restoration will be done at the sole expense of Gem under the inspection and approval of Tulsa County.
