Terms and Conditions

Note: The term "contractor" includes service providers.

1. **Eligibility:** Rebates are available to PSO non-residential electric customers for the purchase and installation of qualifying energy-savings measures in the PSO service territory, subject to these Terms and Conditions (T&Cs). High volume electric usage Customers that have elected to opt out of energy efficiency offerings, by notifying PSO in writing using the PSO provided Opt-Out form, are not eligible to participate. PSO reserves the right to deny any application that may result in PSO exceeding its rebate budget. Rebates are limited, offered on a first-come/first-served basis, and are subject to project and Customer eligibility and funds availability. Rebates cannot exceed the cost of materials and labor, and may be subject to additional caps based on project type.
2. **Dates:** Rebates are available for energy-savings measures purchased after January 1, 2016, and before December 31, 2018.
3. **Authorization, Rebate Changes, Suspension, or Cancellation:** PSO may change the rebate requirements, rebates or T&Cs, including suspending acceptance of applications or terminating the offering, at any time and without notice. In the event of a rebate change, pre-approved applications will be processed to completion under the T&Cs in effect at time of pre-approval. Submission of a completed application does not entitle Customer to rebate participation. For projects requiring pre-approval, entitlement to rebate participation and PSO's obligation to pay rebates may occur only after PSO has granted written authorization, which PSO may grant or not at its sole discretion.
4. **Project Approval:** Pre-approval is required for all prescriptive projects qualifying for a total rebate of more than \$5,000, and for all custom projects, regardless of total rebate. Some measures may require pre-approval regardless of rebate amount, as specified in the technical requirements. PSO reserves the right to inspect any project prior to pre-approval. For projects requiring pre-approval, no project-related energy-savings measures may be ordered or installed prior to the date of PSO's pre-approval. Violation of this prohibition will disqualify the energy-savings measures for rebates. Projects must be completed by the date listed on the pre-approval notification letter (within 180 calendar days for retrofit projects and 365 calendar days for new construction projects). Applications for projects not requiring pre-approval must be submitted within 60 days of the invoice date (for retrofit projects) or the certificate of occupancy (for new construction projects).
5. **Proof of Purchase:** Prior to PSO's verification of the energy-savings measure installation, Customer must provide copies of all invoices or other appropriate documentation that clearly verifies the costs of purchasing and installing the measure(s), including all material, labor, and equipment discounts. Invoices must indicate a verifiable breakout of all measures purchased for installation under the rebate application, including model numbers and quantity.
6. **Project Verification:** PSO may conduct an inspection of Customer's facility to verify pre- and post-installation conditions or verify documentation prior to rebate payment at any time after receipt of an application. PSO is not obligated to pay any rebate until it has performed a satisfactory post-installation inspection. Should PSO determine that energy-savings measures were not installed in accordance with the approved application, or if an unapproved measure was installed, or if the installation was not consistent with generally accepted engineering/construction practices, changes may be required before payment is issued. PSO's sole obligation is limited to paying properly qualified rebates as specified herein. PSO shall not be liable either to Customer or to any other party for any special, indirect, consequential, or incidental damages, regardless of the theory of recovery, caused by or arising from any activities associated with this rebate offering.
7. **Customer Tax Obligation:** Customer or Customer's designated contractor is responsible for declaring and paying any and all applicable federal, state, and local taxes that may be owed on any rebate payment. PSO shall not be liable for any federal, state, and local taxes that may be owed on or as a result of any rebate payment.
8. **Compliance:** Customer is responsible for obtaining any and all necessary licenses and permits related to the installation of energy-savings measures. Customer also agrees to comply with all federal, state, and local laws, codes, and regulations related to the installation and disposal of all equipment.
9. **Removal of Equipment:** Customer agrees to remove and dispose of the equipment being replaced by the energy-savings measures in accordance with all legal requirements. Customer agrees not to re-install any of this equipment in the PSO service territory or transfer it to any other party for such installation.
10. **Replacement of Failed Equipment:** Customers who install energy-savings measures are expected to replace any of the measures that fail with similar or superior energy savings equipment at Customer's expense.
11. **Evaluation Follow-up Visits:** With advance notice, PSO reserves the right to make or to have its contractor(s) make follow-up visits to Customer facilities during the 36 months following completion of the project to provide PSO with an opportunity to review the operation of the energy-savings measures for evaluation purposes. Customer agrees to cooperate with this effort.
12. **Contractor Selection:** Customer may select any Oklahoma licensed contractor to perform the work contemplated by the application, even after the application is pre-approved by PSO. However, PSO reserves the right, in its sole discretion, to prohibit specific contractors from rebate participation.
13. **No Warranties:** PSO does not endorse, guarantee, or warrant any particular manufacturer or product and PSO provides no warranties, express or implied, for any products or services, and herein specifically disclaims any such guarantees or warranties. PSO is not liable or responsible for any act or omission of any contractor hired by Customer. Customer's reliance on warranties is limited to any warranties that may arise from, or be provided by contractors, vendors, etc. Customer acknowledges that neither PSO nor any of its consultants are responsible for ensuring that the design, engineering, and construction of the facility or installation of the energy-savings measures are proper or comply with any particular laws (including patent laws), codes, regulations, or industry standards. PSO makes no representations of any kind regarding the results to be achieved by the measures or the adequacy or safety of such measures.
14. **Limitation of Liability:** PSO's sole obligation is limited to paying the properly qualified rebates specified herein. PSO shall not be liable to Customer or any other party for any special, indirect, consequential, or incidental damages, regardless of the theory of recovery, caused by or arising from any activities associated with this rebate offering.
15. **Obligations between the Parties:** Customer acknowledges that any contractor selected by Customer is not an agent, contractor, or subcontractor of PSO and is an independent contractor engaged by Customer, and that PSO does not manage or control the contractor's performance. PSO shall have no obligation to maintain, remove, or perform any work whatsoever on the energy-savings measures installed. PSO shall have no liability for a contractor's failure to perform, for failure of the energy savings measures to function, for any damage to Customer's premises caused by the contractor, or for any and all damages to property or injuries to persons caused by or associated with the energy savings measures.
16. **AEP/PSO Logo:** Customers or market providers may not use the AEP or PSO logo in any marketing, advertising, or promotional materials without PSO's prior written permission.
17. **Miscellaneous:** These T&Cs and this application, of which these T&Cs are an integral part, constitute the entire agreement between the parties and supersede all other communications, representations, and understandings.
